ARBORVITAE, EMERALD GREEN
*Thuja occidentalis ‘Smaragd’*

**Height:** 10-15’
**Spread:** 3-4’
**Light requirement:** full sun to part shade
**Growth rate:** slow
**Color(s):** emerald green
**Berry:** none

Neat, narrow pyramidal form excellent for screen or hedge. Dense branches with foliage that stays green in winter. Heat tolerant, resistant to spider mites. Trim spiral toparies to maintain shape. Recommended by the Nebraska Statewide Arboretum (with protection).

#5 $69.99  #10 $159.99

ARBORVITAE, HOLMSTRUP
*Thuja occidentalis ‘Holmstrup’*

**Height:** 5-8’
**Spread:** 2-3’
**Light requirement:** full sun to part shade
**Growth rate:** slow
**Color(s):** medium green to bronze
**Berry:** none

Compact, upright plant with bright green color that takes on a bronze color in winter. Bushy foliage gives a textured appearance. Tolerates poor drainage. Recommended by the Nebraska Statewide Arboretum (with protection).

#5 $69.99  #10 $89.99

CYPRESS, RUSSIAN, ON STANDARD
*Microbiota decussata*

**Height:** 3-4’
**Spread:** 3-4’
**Light requirement:** full/part sun
**Growth rate:** moderate-fast
**Color(s):** green turning bronze in winter
**Berry:** none

This shrub has been grafted onto a standard, giving it a weeping appearance. It’s ideal for use in beds, borders or winter-protected containers. The feathery green, scale-like foliage turns bronze/burgundy in winter. Low maintenance, drought tolerant once established, it needs well-drained soil.

#10 $169.99
**JUNIPER, GREEN COLUMNAR**  
*Juniperus chinensis ‘Hetzii Columnaris’*

Height: 15’  
Spread: 5’  
Light requirement: full sun  
Growth rate: fast  
Color(s): bright green  
Berry: none

Attractive, upright, pyramidal form is highlighted by crisp bright-green foliage on dense, tight branches. An evergreen prized for versatility as a screen or for garden background, it is a vigorous grower.

#15 $239.99

**JUNIPER, SPARTAN**  
*Juniperus chinensis ‘Spartan’*

Height: 10-15’  
Spread: 5’  
Light requirement: full sun  
Growth rate: fast  
Color(s): gray-green  
Berry: none

Handsome, dark green, densely branched, fast-growing tree good for a screen or windbreak. No trimming or pruning necessary, but can be sheared into topiary or spiral shape. Water regularly the first year to establish a deep root system, it is heat and drought tolerant once it’s well-established. Fertilize before new growth begins in spring.

#6 $99.99  #15 $239.99

**JUNIPER, TAYLOR**  
*Juniperus virginiana ‘Taylor’*

Height: 30’  
Spread: 3-4’  
Light requirement: full sun  
Growth rate: moderate  
Color(s): blue-green  
Berry: none

Narrow columnar tree with soft, dense foliage. If planted in rows it makes a great privacy screen. Formal-looking, good for defining front entrances or as a dramatic vertical accent. Developed by the Nebraska Statewide Arboretum from an Eastern Red cedar found in Taylor, Nebraska.

#5 $89.99  #15 $169.99
**PINE, AUSTRIAN**
*Pinus nigra*

*Height:* 50-60’
*Spread:* 20-30’
*Light requirement:* full sun
*Growth rate:* fast to moderate
*Color(s):* dark green
*Berry:* seed cones

The darkest green of all the pines with slender 6” long needles. Has a broad upright growth habit and makes a good screen or windbreak. Needs weekly watering, will tolerate extreme heat but needs additional water. Tolerates clay soil. Attracts birds, deer resistant.

#10 $149.99

**PINE, AUSTRIAN, OREGON GREEN**
*Pinus nigra ‘Oregon Green’*

*Height:* 18-20’
*Spread:* 15’
*Light requirement:* full sun
*Growth rate:* slow
*Color(s):* dark green
*Berry:* seed cones

Specimen tree with unique open form. Dense, dark green needles grow curved against the branches. Follow a regular watering schedule during the first year to establish a deep, extensive root system. Attracts birds, deer resistant, clay tolerant.

#10 $169.99

**PINE, BOSNIAN**
*Pinus leucodermis*

*Height:* 20-35’
*Spread:* 8-10’
*Light requirement:* full sun
*Growth rate:* slow
*Color(s):* dark green
*Berry:* seed cones

#10 $149.99
**PINE, PONDEROSA**  
*Pinus ponderosa*

- **Height:** 50-100’
- **Spread:** 25’
- **Light requirement:** full sun
- **Growth rate:** moderate-rapid
- **Color(s):** yellow to dark green
- **Berry:** seed cones

A large, native-to-Nebraska pine that is pyramidal when young, becoming irregularly oblong and open-crowned with age. Attracts wildlife, is commonly used for farmstead or field windbreaks. Not shade tolerant, but tolerates clay soil and is deer resistant.

#10  $149.99

**PINE, TANNENBAUM**  
*Pinus mugo, ‘Tannenbaum’*

- **Height:** 10-11’
- **Spread:** 6’
- **Light requirement:** full sun
- **Growth rate:** slow
- **Color(s):** green, hint of grey-blue
- **Berry:** seed cones

Has a perfectly formed “Christmas tree” shape with long-needled green foliage tinged with a hint of gray/blue. Believed to be the first commercially-produced tree form of Mugo Pine. Very hardy, highly adaptable to a wide range of environmental and climatic conditions, including clay soil.

#6-10  $169.99

**PINE, VANDERWOLF’S PYRAMID (LIMBER PINE)**  
*Pinus flexilis ‘Vanderwolf’s Pyramid’*

- **Height:** 20-25’
- **Spread:** 10-15’
- **Light requirement:** full sun
- **Growth rate:** slow
- **Color(s):** blue-green
- **Berry:** seed cones

Native pyramidal tree with long, soft, blue-green needles on uniformly ascending branches. Makes a dramatic specimen tree or good screen. Prefers moist, well-drained soil, but can tolerate dry conditions once established. Attracts birds, deer resistant.

#10  $149.99  #15  $169.99
PINE, WHITE
*Pinus strobus*

**Height:** 50-80’  
**Spread:** 20-40’  
**Light requirement:** full sun  
**Growth rate:** fast  
**Color(s):** blue-green  
**Berry:** seed cones

A beautiful, symmetrical tree with soft, blue-green needles and long, narrow cones. Pyramidal when young, becoming broad and more open with age. Fast–growing, tolerant of some shade, tolerates clay soil. Good in windbreaks and screens.

#15 $169.99

PINE, WHITE, COLUMNAR
*Pinus strobus* ‘Fastigiata’

**Height:** 40’  
**Spread:** 5-10’  
**Light requirement:** full sun to part shade  
**Growth rate:** fast  
**Color(s):** blue-green  
**Berry:** seed

Much narrower than plain White Pine, this has a beautiful columnar form with soft, feathery foliage. Easy to transplant and low maintenance, it makes a good screen, hedge, or specimen tree. Prefers moist, well-drained soil. Deer resistant, does not tolerate urban air pollution.

#15 $169.99  
#20 $239.99

PINE, WHITE, PATTON’S SILVER SPLENDOR
*Pinus strobus* ‘PSS’

**Height:** 40-50’  
**Spread:** 20-30’  
**Light requirement:** full sun  
**Growth rate:** fast  
**Color(s):** blue-green  
**Berry:** long, narrow seed cones

Blue-green needles have a distinct silver cast. Tree is very much like regular White Pine, but has excellent resistance to white pine blister rust. Very attractive as a large specimen tree or used in a privacy screen or windbreak.

#10 $169.99
SPRUCE, ALBERTA, DWARF
*Picea glauca ‘Conica’*

- **Height:** 6-8’
- **Light requirement:** part shade
- **Color(s):** green
- **Spread:** 4-5’
- **Growth rate:** medium
- **Berry:** seed cones

A cone-shaped conifer with a near perfect shape. New needles are soft to the touch. Bright green new growth changes to a grayish-green with maturity. Great as a miniature Christmas tree. Prefers full sun in a moist, well-drained soil. Needs good air circulation, so plant a few feet away from other plants or buildings.

#3 $79.99

SPRUCE, BLACK HILLS
*Picea glauca densata*

- **Height:** 30-40’
- **Light requirement:** full sun
- **Color(s):** green
- **Spread:** 15-20’
- **Growth rate:** slow
- **Berry:** seed cones

Extremely hardy with a slight bluish-green cast to the needles. Very dense, slow-growing pyramidal habit. Resistant to most needle problems and tolerates clay soil. Excellent choice for the landscape or windbreaks. Recommended by the Nebraska Statewide Arboretum.

#3 $39.99  #10 $139.99

SPRUCE, COLORADO BLUE
*Picea pungens glauca*

- **Height:** 20-40’
- **Light requirement:** full sun- light shade
- **Color(s):** blue-green to green
- **Spread:** 20-40’
- **Growth rate:** moderate
- **Berry:** seed cones

An upright, pyramidal grower that varies from blue-green to green Colorado Blue Spruce likes well-drained soil, does not grow well in clay. Rarely gets thin or loses lower branches if planted in full sun. Established plants have some drought tolerance.

#3 $39.99  #10 $139.99
SPRUCE, FAT ALBERT
*Picea pungens ‘Fat Albert’*

**Height:** 20-30’
**Light requirement:** full sun
**Color(s):** blue-green

Spread: 15-20’
**Growth rate:** slow
**Berry:** seed cones

Dense, slow-growing evergreen with outstanding blue color. Has a naturally straight leader and pyramidal shape, getting nearly as wide as tall when mature. Great choice for a space that won’t accommodate a full-size Colorado spruce. Requires well-drained soil.

#15  $189.99

SPRUCE, GLOBE ON STANDARD
*Picea pungens ‘Globosa’*

**Height:** 4-6’
**Light requirement:** full sun
**Color(s):** blue-green

Spread: 5-6’
**Growth rate:** slow
**Berry:** seed cones

A compact, round shaped grafted ornamental tree with beautiful blue foliage that becomes brighter in summer. To maintain the desired globe-shape prune out any upright shoots. An excellent accent or specimen plant. Requires well-drained soil.

#15  $189.99

SPRUCE, HOOPSI
*Picea pungens ‘Hoopsi’*

**Height:** 20-30’
**Light requirement:** full sun
**Color(s):** silvery-blue

Spread: 15-20’
**Growth rate:** slow
**Berry:** seed cones

Outstanding evergreen tree, generally considered the best of the blue forms. The foliage is dark blue on inner branches with new growth that is brighter blue. Has densely-growing, pyramidal form, needs little pruning. Requires well-drained soil.

#15  $189.99
SPRUCE, NORWAY, COLUMNAR
*Picea abies 'Cupressina'*

- **Height:** 20-30’
- **Light requirement:** full sun
- **Color(s):** dk. green
- **Spread:** 6-8’
- **Growth rate:** fast
- **Berry:** seed cones

Fast-growing, narrow evergreen with dark green needles that hold up in winter under weight of snow. Elegant appearance, great used as specimen tree or in a windbreak/privacy wall. Dense, closely set branches have dark green, slightly curved needles. Highly recommended for cool climates with a short growing season.

#15 $189.99

SPRUCE, NORWAY, PAUL’S SELECT
*Picea abies ‘Paul’s Select’*

- **Height:** 10-12’
- **Light requirement:** full sun to partial shade
- **Color(s):** blue
- **Spread:** 6’
- **Growth rate:** moderate
- **Berry:** seed cones

Its unique blue color makes this pyramidal Norway Spruce a standout in the garden. Suitable as a specimen plant, it can also be used as a windbreak. Good alternative to Colorado blue spruce selections where disease pressure is an issue. Prefers moist, well-drained soil, but tolerates dry conditions.

#15 $189.99

SPRUCE, SERBIAN BRUNS
*Picea omorika ‘Bruns’*

- **Height:** 25-30’
- **Light requirement:** full sun to part shade
- **Color(s):** silvery-blue
- **Spread:** 8-10’
- **Growth rate:** slow-moderate
- **Berry:** purple seed cones

Bruns has a narrow, upright, pyramidal shape. Selected conifer of the year in 2007 by the American Conifer Society. Average height is 15-20’, but may grow up to 30 feet with age. It’s a perfect specimen for small sites, Asian theme gardens; or a very unique hedge. Intolerant of urban pollution, so avoid street side plantings.

#7 $139.99
**SPRUCE, SESTER DWARF**
*Picea pungens glauca ‘Sester Dwarf’*

<table>
<thead>
<tr>
<th>Height: 8’</th>
<th>Spread: 5’</th>
</tr>
</thead>
<tbody>
<tr>
<td>Light requirement: full sun</td>
<td>Growth rate: slow</td>
</tr>
<tr>
<td>Color(s): silvery-blue</td>
<td>Berry: seed cones</td>
</tr>
</tbody>
</table>

Stunning blue needles, low maintenance, and conical form make this dwarf spruce an ideal landscape plant. Only about one-fourth the size of its larger parent, it is the perfect small form of Colorado Spruce. Requires little pruning to keep its tidy shape.

#6 $169.99

---

**SPRUCE, WHITE**
*Picea glauca*

<table>
<thead>
<tr>
<th>Height: 40-60’</th>
<th>Spread: 25-30’</th>
</tr>
</thead>
<tbody>
<tr>
<td>Light requirement: full sun</td>
<td>Growth rate: fast</td>
</tr>
<tr>
<td>Color(s): green</td>
<td>Berry: seed cones</td>
</tr>
</tbody>
</table>

This beautiful, large evergreen tree has a conical, upright shape with horizontally-growing branches. It is a lovely specimen tree but is also a good choice for windbreaks or screens. Extremely cold hardy to, it prefers, moist, well-drained soil.

#15 $169.99

---

**SPRUCE, WEEPING WHITE**
*Picea glauca ‘Pendula’*

<table>
<thead>
<tr>
<th>Height: 40-50’</th>
<th>Spread: 10’</th>

</thead>
<tbody>
<tr>
<td>Light requirement: full sun to part shade</td>
<td>Growth rate: fast</td>
</tr>
<tr>
<td>Color(s): blue-green</td>
<td>Berry: seed cones</td>
</tr>
</tbody>
</table>

This interesting, weeping accent or specimen plant has dense, pendulous branches with a somewhat formal appearance. Adapts to many different growing conditions, but prefers rich, moist, slightly acidic soil. Deer resistant.

#15 $149.99
YEW, DARK GREEN PYRAMID

*Taxus x ‘Dark Green Pyramidalis’*

**Height:** 10-15’
**Spread:** 6-8’

**Light requirement:** full sun to full shade
**Growth rate:** slow

**Color(s):** deep green
**Berry:** red

An upright, broad, pyramidal tree that requires some trimming to keep the best shape. Hardy, with deep green color and soft, blunt needles. No known insect or disease problems. Adaptable to wide variety of growing conditions, although needs good drainage

#15   $169.99
